# 5005 Silcoil

Transparent silicone lubricant

## Product info

Transparent lubricant for conveyor belts, slide rails, guide ways and locks. Provides outstanding sliding capability on almost all surfaces. Also a conditioner and parting agent for plastics, rubber, wood and metal surfaces. Also acts as protection agent for rubber and plastic parts.

- / Leaves no stains,
- / prevents surfaces from sticking, squeaking...
- / protects from electrical contacts from oxidisation and corrosion, - water-repellent
- / suitable for fitting rubber parts.

## How to use?

Shake well prior to use and apply to the desired spots. The spray is immediately effective and allows for instant lubrication of moving parts directly after use. Do not use on glass.

**Usage possibilities: conveyor belts, slide rails, guide ways and locks.**

For further and updated information please refer to the TDS published on [www.silco.si](http://www.silco.si).
