

Description

90.690 Unimix Retarder Thinner is a special mixture of solvents for longer open time of Unimix paint where larger surfaces needs to be painted.

Features

- The overspray is easily melted when using 60.690 thinner
- The Unimix Retarder Thinner can be used with all Unimix binders

Application

Add at least 2 - 3 % of Unimix Retarder Thinner to notice the wanted effects.

Up to 10 % of Unimix Retarder Thinner can be used when very large surfaces in combination with higher application temperatures.

Acrylic Thinners (7050/7070) can also be used together with 90.690 Unimix Retarder Thinner without any problems.

Too much of Unimix Retarder Thinner can also prolong the total drying time of the paint.

To determine the right amount of Unimix Retarder Thinner needed a series of tests needs to be done.

Health and safety

For Health, Safety and Environmental instructions please refer to relevant Safety Data Sheets and labels on the cans. Storage conditions should also be considered.
